GRINNELL-NEWBURG COMMUNITY SCHOOL DISTRICT

Support Staff Evaluation

(Adopted 07/01/93)

The Grinnell-Newburg Community School District system of evaluation has been developed on the premise that all school support staff employees are evaluated. Regardless of how formal the system for evaluation is, what evidence is collected or analyzed, or how often formal reports are written, school support staff employees are evaluated and they are evaluated often. Students, parents, teachers, administrators, peers, and the general public all evaluate school employees.

The adopted system of formal evaluation for support staff personnel, including aides, secretaries, food service employees, physical plant employees, and transportation employees, establishes District standards expected of all support personnel and uses those standards and employee *Assignment Descriptions* to judge individual performance. Evaluation procedures will identify areas of employee strengths and weaknesses and utilize those areas to establish goals to be reached for the subsequent evaluation period.

Each support staff employee will be evaluated twice each contract year by the appropriate supervisor(s), administrator(s), or designee(s). An initial, informal evaluation will be conducted prior to December 1 to assess current year progress and to change or modify goals for the year. The evaluator may, or may not, use the adopted evaluation instrument for this evaluation. A formal evaluation will be held prior to the issuance of contracts for the subsequent year, at which time the employee's performance will be assessed using the adopted *Evaluation Form*, and goals for the subsequent year will be established. At the beginning of the contract year the employee will be given a copy to the adopted *Evaluation Form* and appropriate *Assignment Description* and notified of who will be conducting his/her evaluation.
